KIDNEYMATE

Silent Development

- Gradual kidney function decline
- Few early symptoms

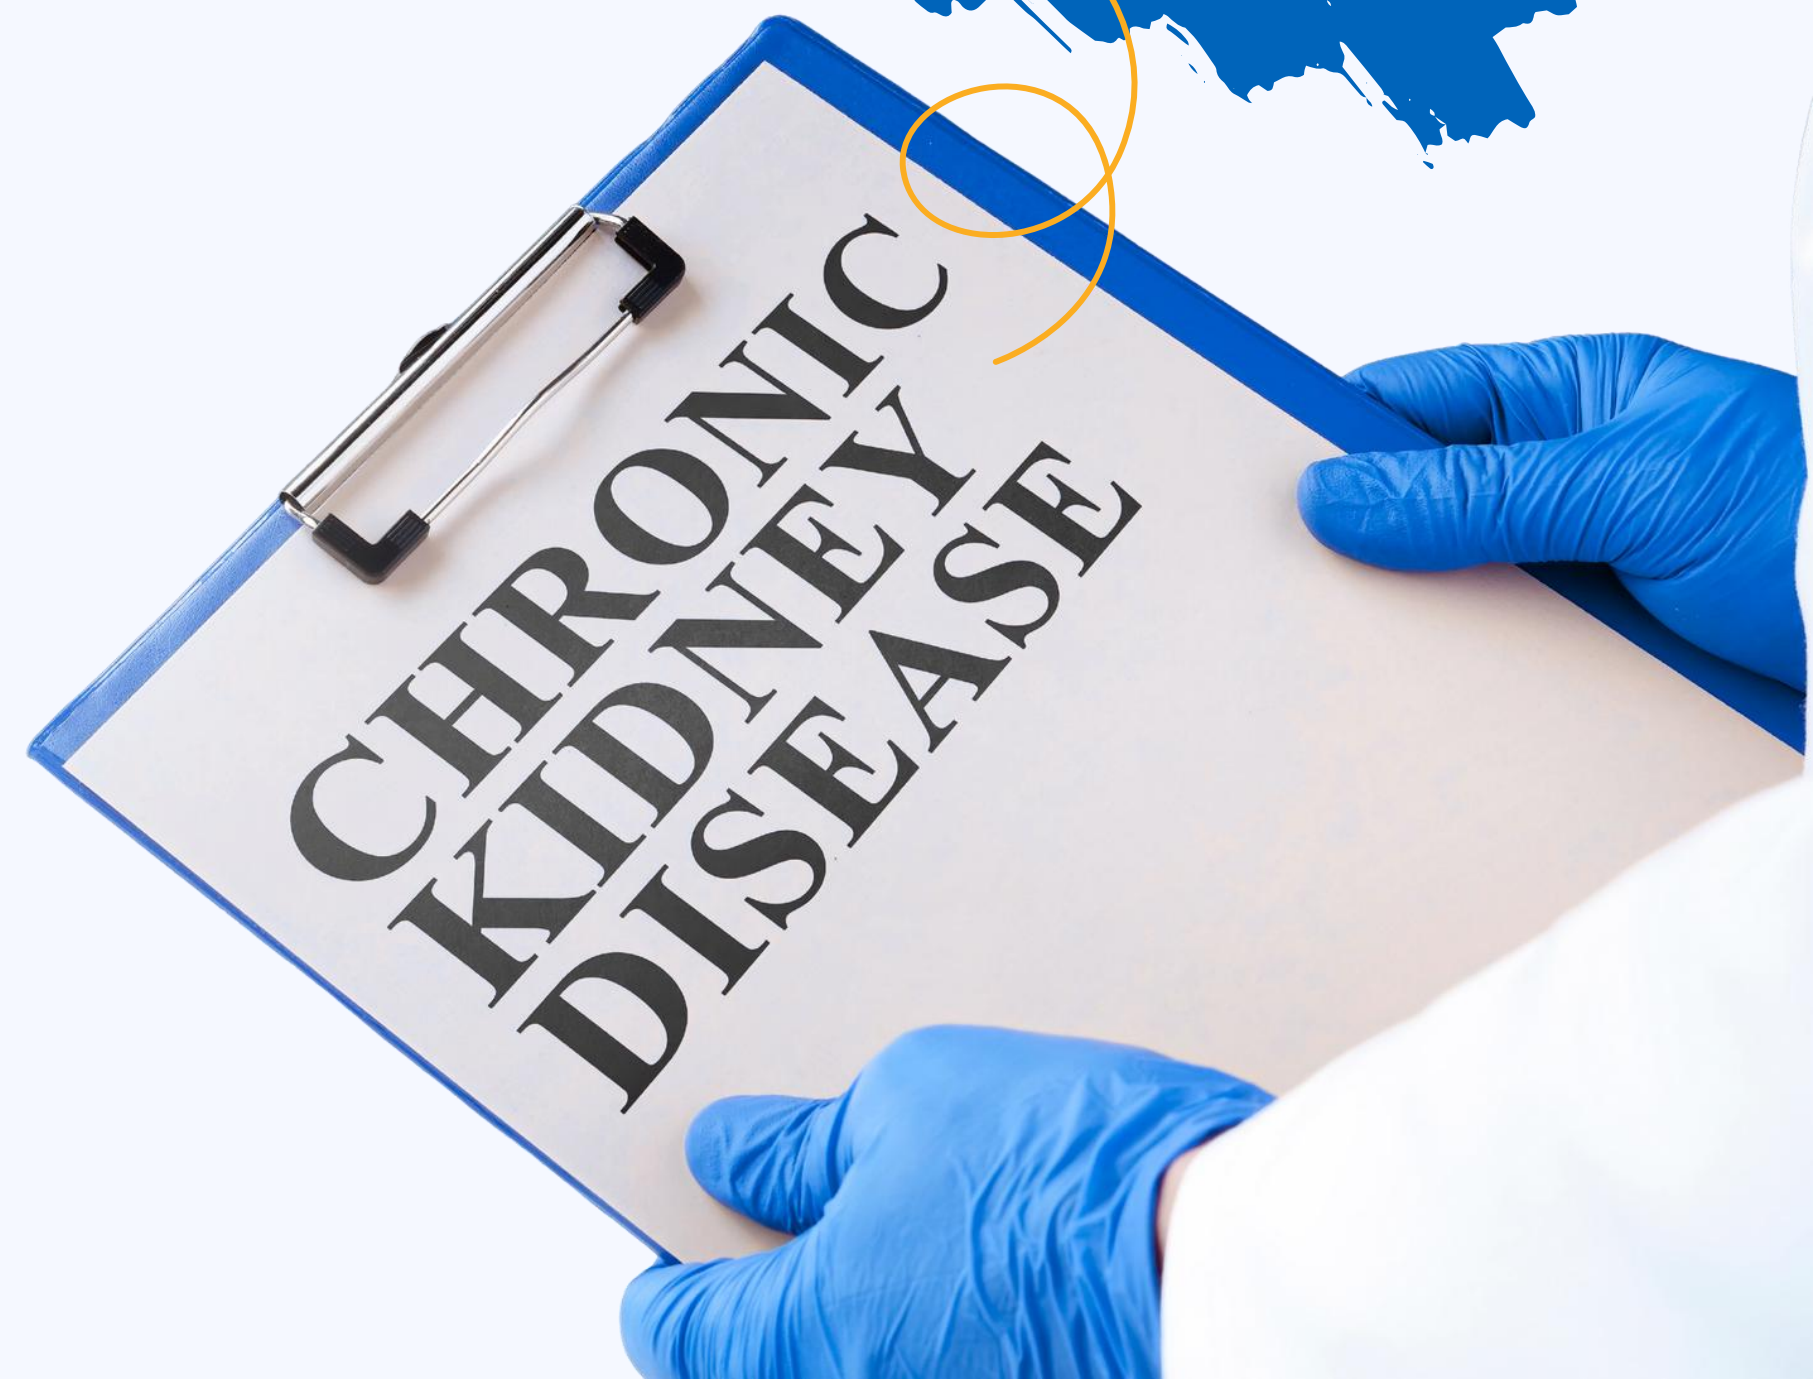

Daily Burden

- Food, fluids, medication, symptoms
- Appointments and lifestyle changes

Clinical Risk

- Long-term monitoring
- Dialysis or specialist care

**More than a Diagnosis,
It's a daily management
Challenge!**

Problems We are Addressing

Primary Focus

Daily Patient Burden

- **Need to keep track & manage daily**
 - intake of food,
 - fluids,
 - medication,
 - symptoms,
 - appointments
- **Self-management is often**
 - scattered,
 - forgotten,
 - inconsistent
- **Struggle to follow complex care plans**
- **17–74% patients are non-adherent to meds & diet**

Problems We are Addressing

Secondary Focus **Clinical Visibility Gap**

- **GP/Specialists often do not see the patient's day-to-day health journey between appointments.**
- **Patterns between appointments are missed**
- **Clinicians rely mostly on conversations & test results**

KIDNEY MATE

FORGE Federation Opportunities
for Regional Growth
and Entrepreneurship

A **SOLUTION** ADDRESSING **KIDNEY PATIENTS'** PROBLEMS TO MANAGING HEALTH IN A **PERSONALIZED** WAY & TURNING **CKD ROUTINES** INTO ACTIONABLE **CLINICAL INSIGHTS** DOCTORS NEVER HAD EASY ACCESS TO, **UNTIL NOW!!**

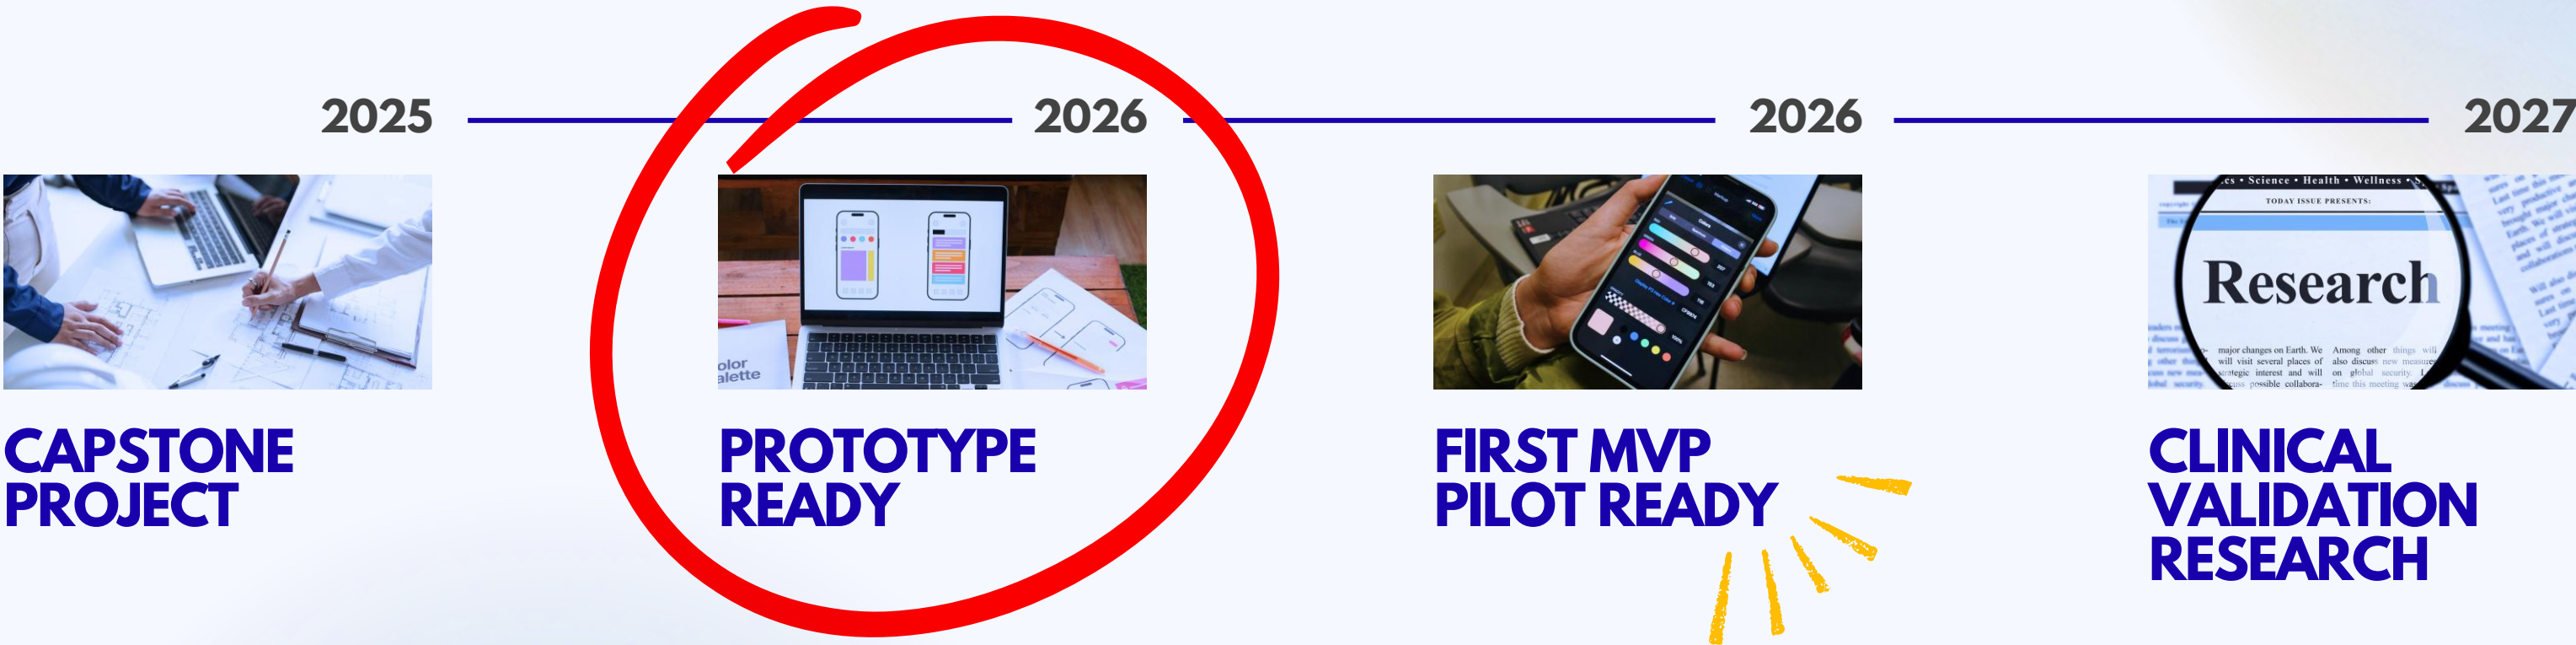

Presented by
MOHAMMAD SAUD

Our Solution

An AI-integrated application that tracks CKD patients' daily routine & generates insights from data that help doctors to provide better treatment!

Where are we Now?

Our Long-Term Vision

CLINICIAN INSIGHT DASHBOARD

In next 2 years - Subject to Clinical **research**

90-Day Patient Trend View

Data patterns between
Appointments

Future Health System Integration

Connects with EHR,
MyHealthRecord, Clinic
platforms

Early Risk & Progress Flags

Highlights unusual
patterns - clinicians
can act earlier

Unique Advantage

Competitors

CKD-Go!

Mizu

Kidney Diet

SUCCESS

Bright OS

Not another generic health tracker

KidneyMate Differentiation:

CKD-specific habit formation

- through daily self-management tracking

Longitudinal patient data

- showing real patterns between appointments

Patient-to-clinician visibility

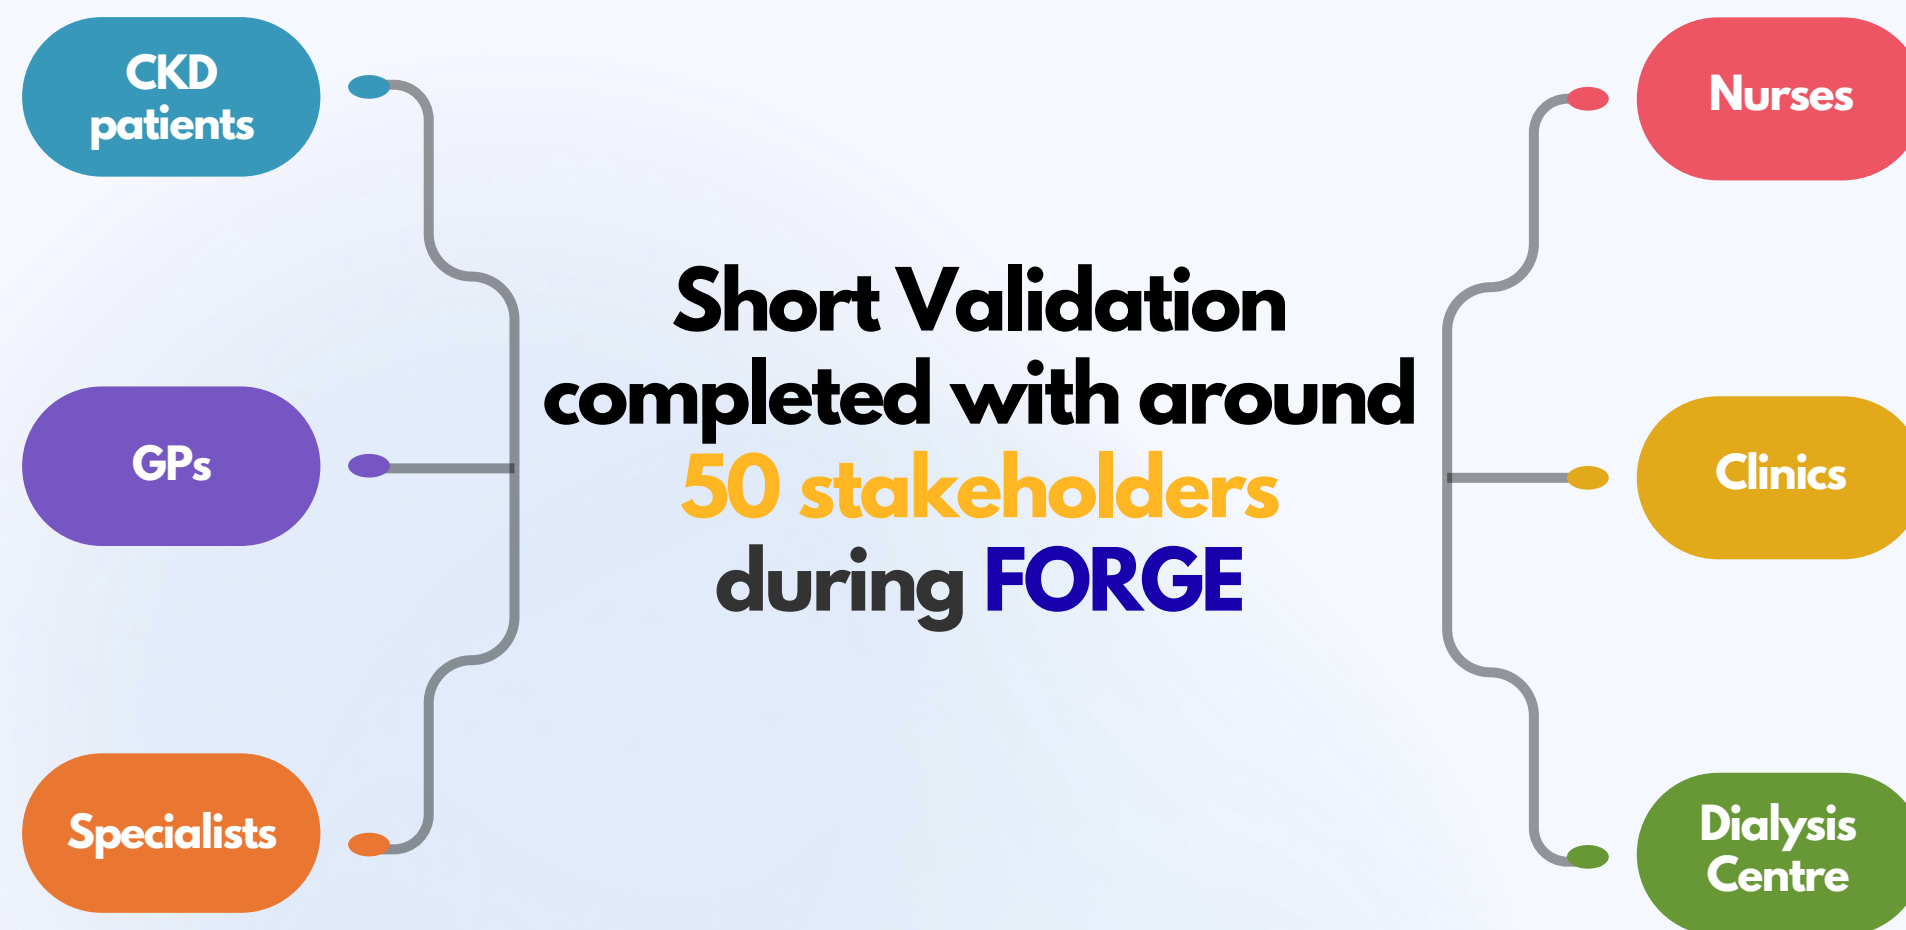

- through structured clinical summaries

Focused CKD ecosystem

- with future patient, clinician & renal-care networks

Market Validation

What the Results are:

Patients need **simpler**
daily CKD management

Clinicians need clearer,
regular patient data

Clinics care about **trust**, **privacy**,
workflow fit & reliability

\$\$\$?

PATIENT REGULAR

\$0 /mo

PATIENTS/CAREGIVERS

- Access to all self-management tools
 - medication reminders
 - fluid tracking
 - food/diet logs
 - sleep & mood tracking
 - appointment reminders
 - doctor/contact storage

PATIENT PREMIUM

\$8.95 /mo

PATIENTS/CAREGIVERS

- Everything on Patient Regular
- Access to advanced tools:
 - Symptom Log
 - Personal Progress Summaries
 - Exportable reports for appointments

CLINIC DASHBOARD

\$895 /mo
for 50 patients

A\$8,995 /one-off
for Integration

CLINICS/HOSPITALS

- A clinician-facing dashboard
 - View enrolled patient summaries, trends
 - adherence patterns
 - symptom changes
 - fluid/food tracking history
 - Generated Patient History
 - EHR Integration
 - Patient Insights
 - Risk Patterns
